THIS PAGE IS FOR YOUR INFORMATION – PLEASE KEEP FOR REFERENCE

Welcome to the **Rowe Neurology Institute!** We are glad you've chosen to receive your neurologic care here. There are several things you should know about a neuroscience institute, and how this is different from a regular doctor's office:

While our neurologists all see general neurology patients, each has areas of subspecialty, and typically has trained beyond what is standard for general neurologists. Your initial neurologist may want the input of a subspecialist within the Institute. Our areas of special expertise include:

Multiple Sclerosis	Sleep Disorder
Headache	Neuropsychology

We have diagnostic facilities in our Lenexa office. This includes MRI scanning, EEG and EMG testing, Sleep disorder testing, and many other things not usually done through a regular neurology office. In California we have access to top quality imaging and sleep centers.

We conduct research. We have an active research staff. Some patients may be asked if they are interested in participating in selected clinical research projects.

POLICIES:

NO TEST RESULTS ARE GIVEN OVER THE TELEPHONE. A visit with a provider is the best and only way to discuss results and their importance; in California we also utilize internet tele-neurology follow up visits with Dr. Rowe or staff.

MEDICATIONS REFILLS ARE HANDLED DURING OFFICE VISITS. No refills are handled after hours or by the on-call physician.

We do encourage communication through the patient portal.

If you leave a message for a nurse, they will make every attempt to return calls within 48 hours. Please do not leave duplicate messages.

If you think you are having a medical emergency, do not call our office. Call 911 or go to the emergency room.

Patient Insurance Coverage Responsibility Disclaimer and Authorization

I understand that in the **California** office, the RNI **DOES NOT FILE INSURANCE**, however the institute will supply the forms necessary for me to file **OUT OF NETWORK** claims with my insurance company.

I certify that I am not covered by Medicare of any other type of payment plan that would make it inappropriate for Dr.Rowe or Consultants in Neurology to bill me personally for my medical care and he has no obligations to send my bill for medical services to any other payor. I understand that I am solely responsible to pay for my medical care at the time of my treatment/consultation in the California office.

Authorization for Medical Treatment and Access to Prescription History

While I am here I permit the employees, the doctor, and all other persons caring for me to treat me in ways they judge are beneficial to me. I understand the attending physician will explain to me the nature of my condition and his recommended treatment and any associated risk involved. I also understand that this care may include diagnostic testing, examinations, medical and or/surgical treatment and no guarantees have been made to me about the outcome of this care. I also grant permission to access my prescription history across providers. This prescription History enables the doctor to make a more informed clinical decision.

Acknowledgement of Notice of Privacy Practices/Consent to Treat/Lab Result Notification/Photograph Consent

I acknowledge that I have read the Notice of Privacy Practices. I understand that CONSULTANTS IN NEUROLOGY, P.A. may, at its discretion, change the terms and conditions of this notice. I understand the content of the Notice of Privacy Practices and will be provided with a copy upon my request. I give CONSULTANTS IN NEUROLOGY, P.A. permission to leave a message on my answering machine or with the following family members regarding reports, or blood work if I am not home when they call. I give CONSULTANTS IN NEUROLOGY, P.A. permission to take my picture for identification purposes. I consent to general treatment, medical procedures, and medications prescribed by CONSULTANTS IN NEUROLOGY, P.A. I understand the physician's and staff of CONSULTANTS IN NEUROLOGY, P.A. will not discuss my health information with my family or friends unless I expressly authorize them to do so.

THE EPWORTH SLEEPINESS SCALE

Patient Name: ______________________________

Please use the following scale, to decide the likeliness you would doze off or fall asleep in the following situations.

Even if you have NOT done some of these things RECENTLY, try to answer how they would have affected you.

Using the following scale, Please choose the most appropriate number for each situation:

0 = Would **NEVER** doze or fall asleep
1 = **Slight Chance** of dozing or falling asleep
2 = **Moderate Chance** of dozing or falling asleep
3 = **High Chance** of dozing or falling asleep

SITUATIONS:	Chance of dozing
Sitting and Reading	________________
Watching TV	________________
Sitting, inactive in a public place (Theatre, meeting, etc.)	________________
As a passenger in a car, for an hour without a break	________________
Lying down to rest in the afternoon	________________
Sitting and talking to someone	________________
Sitting quietly after lunch, without alcohol	________________
In a car while stopped, for a few minutes in traffic	________________
TOTAL :	________________

Add up the numbers you put in each box to get your total score. A total score of less than 10 suggest that you may not be suffering from excessive daytime sleepiness. A total score of 10 or more suggests that you may need further evaluation by a physician to determine the cause of your excessive daytime sleepiness and whether you have an underlying sleep disorder.

It is important to remember that true excessive daytime sleepiness is almost always caused by an underlying medical condition that can be easily diagnosed and effectively treated.
